EDUCATION

TECHNO INDIA UNIVERSITY <i>Bachelor of Technology in Computer Science and Engineering</i>	2023-2027 <i>sgpa-8.26</i>
RAMNAGAR N.B.P.C HIGH SCHOOL (H.S) <i>Higher Secondary</i>	2021-2023 <i>Grade - A</i>
RAMNAGAR N.B.P.C HIGH SCHOOL (H.S) <i>Secondary</i>	2021-2023 <i>Grade - A+</i>

TECHNICAL SKILLS

Languages: JAVA, C/C++, SQL , JavaScript, HTML/CSS
Framework: React.js,Next.js
Developer Tools : Git,GitHub, VS Code, Visual Studio,WebStorm Studio, IntelliJ

ACHIEVEMENTS

- **EY Techathon 6.0 (2025):** Promoted to Round 2.
- **Smart India Hackathon (SIH) 2025:** Ranked among the Top 45 teams in the Internal Round. .
- **Google Solution Challenge 2024:** Contributed to social impact solutions for food waste reduction.
- **Pravaah'26 Hackathon (IIT Bhubaneswar):** Built Cosmic Watch, a real-time asteroid tracking platform.

PROJECTS

AI Resume Analyzer <i>React, Tailwind CSS,Puter.js, React Router ,docker</i>	2026
• Built an AI-powered resume analysis platform to evaluate candidates' resumes based on key metrics like skills, experience, and formatting. • Integrated AI functionalities using Puter.js to generate real-time feedback and improvement suggestions. • Developed a responsive and dynamic frontend using React, React Router, and Tailwind CSS for smooth navigation and UI. • Designed an intuitive dashboard to display resume ratings and detailed feedback insights.	
Cosmic Watch – Asteroid Monitoring Platform	2026
Event: <i>Pravaah'26 Hackathon-24hr, IIT Bhubaneswar</i> — Role: <i>Frontend Developer</i>	<i>3rd year</i>
• Developed responsive UI components using next.js • Developed a real-time web platform to monitor Near-Earth asteroids using space-agency APIs. • Built an interactive dashboard for asteroid tracking and potential risk analysis. • Implemented data visualization to display asteroid movement and threat levels.	
Railway Traffic Management System	2025
Event: <i>Smart India Hackathon (SIH) - 2025</i> — Role: <i>Frontend Developer</i>	<i>3rd year</i>
• Developed a web-based platform to optimize train scheduling and minimize congestion. • Implemented real-time dashboards for route tracking and traffic visualization.	
Disaster Prediction System	2024
Event: <i>Smart India Hackathon (SIH) - 2024</i> — Role: <i>Frontend Developer</i>	<i>2nd year</i>
• Built an interactive disaster prediction system to forecast natural calamities. • Created heatmaps for flood-prone regions and integrated live weather data. • Enhanced accessibility and cross-platform compatibility for multiple devices.
